Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner related that the case was in condition for allowance except for a few changes that could be made through an examiner's amendment. A number of the preambles of the added claims seemed to be in error. In addition, some claims had improper language that would have required a rejection under USC 112. These claims were cancelled. Claim 152 was changed to positively recite that the sample was being used to measure a methane value. and some lack of antecedent basis problems were corrected. The applicant agreed to all of the changes.
